APRIL 21, 2022 – APRIL 28, 2022**

Day 02 – SURVEY TAKING

The task for the second day of the camp was survey taking. The students divided into small groups took the streets and did door to door survey in their respective village on the two common non-communicable diseases diabetes and hypertension using the standard questionnaire form provided by the department of community medicine. The students found it much useful and interactive as they get to know about the people much better. They also learnt the practical difficulties they came across but still they went on to accomplish the task successfully.
