SEVEN DAYS SPECIAL CAMP APRIL 21, 2022 – APRIL 28, 2022

Day 03 – GENERAL HEALTH CAMP

On day 03 of the NSS special camp, a general health camp was planned and organised at vaniyambadi village for the people of villages in and around vaniyambadi. An announcement regarding the same was made the previous day by the NSS volunteers through the speakers connected in an auto. They all covered most of the parts of all the three villages. The general camp organised consisted of three departments – General medicine, Ophthalmology and Obstetrics & Gynaecology. The residents and interns from each of the three departments came to the camp and saw around cases. Most of the patients who visited the camp were prescribed some basic medications as well as a random blood sugar using a glucometer was performed on many patients. Everything was carried out free of cost. The patient with somewhat severe illness or chronic problems were explained about their problems as well as the various and latest investigation and treatment facilities available at our institution. They were also clearly told about the transport facility available and also guided about how to reach our institution for further management. The camp went on till 1:30 pm and once all the patients were seen, the camp was closed around 2:00 pm.
