Assistant Professor,
Department of Anaesthesiology,
VMKVMCH, Salem.

National Anthem

All are Welcome

Department of Anaesthesia – CME (16.10.19)

October 16th every year is celebrated as world anaesthesia day to commemorate the first successful demonstration of ether anaesthesia on the same day in 1846.

This year our department along with MEU of our college conducted a CME program on awareness and importance of blood donation. The program was attended by 105 people comprising of HODs, faculties and PG students of various departments. The guest speaker was Dr. Ravindran, M.B.B.S, D.C.P, who is the blood bank medical officer in Govt Mohan Kumaramangalam medical college & Hospital, Salem.

Dr. Naveena welcomed the gathering and Dr. Shanu introduced the speaker. We had conducted a quiz program for our PGs earlier and the prizes were distributed today. One of our staff members read out a poem on the same theme. Our dean inaugurated the CME in the presence of Medical Superintendent and Director of hospital development committee. Our HOD, Dr. Brindha traced the history of anaesthesia along with the recent advances in anaesthesia.

Dr. Ravindran spoke elaborately on blood donation – who can donate, how much one can donate, how often and the need to donate. He also spoke about blood and its component therapy and uses. He emphasized on the need to donate and the importance of giving components instead of whole blood so that a single bag of blood will be useful for multiple recipients if components are used.

Dr. Santhoshini proposed a vote of thanks. The CME was followed by blood donation camp in our hospital blood bank wherein about 10 of our faculty and PGs donated blood.

FEED BACK FROM SPEAKER

I thank the management and department of anaesthesiology for inviting me as a guest speaker on the occasion of world anaesthesia day. The topic given was "awareness and importance of blood donation". I was greeted in a respectful manner. CME hall arrangements were good. Students interacted and cleared their doubts regarding whole blood and components and who and when can donate blood. Food arrangements were good. I felt happy in delivering the lecture at your institute.

Faculty for CME - 16/10/19
